# MULTI-STATIONS OS™

Offices. Perfectly Tailored.<sup>™</sup>

## WORKSPACES FOR A NEW REALITY... INTELLIGENT DESIGNS ON THE WAY WE WORK NOW

Whether you need to create call centers, multipleuser workstations or private offices within an open space, MultiStations OS sets a new benchmark in refined styling and functional versatility by combining the best of systems and casegoods furniture.

Design: Jean Bourassa

# ADAPTABLE DESIGN

The new workplace is dynamic – continuously expanding, contracting and changing. MultiStations OS is designed with this constant evolution in mind. Its diverse set of standard modular components is easy to specify, assemble and are fully reconfigurable to meet on-going demands.

## HORIZONTAL STYLING

4

The aesthetic hallmark of MultiStations OS is the refined horizontal styling of its panel tiles - an intentional deviation from traditional vertical panel frames - that creates seamless panels without vertical obstructions. Panel widths span up to 84" without vertical posts, producing the ideal showcase for highlighting rich wood grains or solid laminate colours.

panel system that slides and locks together with a single standard tool. Slim, 1" thick panels reduce panel creep and significantly reduce the multi-workstation footprint. (For example: Seven workstations using 3" panels equals the footprint of eight MultiStation OS workstations using 1" panels).
