

# SIDESHARE™

GREET & MEET  
CONVERSATION HUBS  
RECEPTION  
KIOSK/BAR

SideShare is purposefully designed to only accommodate one temporary, touch-down, seated person per 6 foot area. Connected lower storage acts as a natural distancing tool as well as functional cabinetry for reducing clutter and need to clean objects.

SideShare is a new approach for temporary greeting and meeting places.

*The new Thinscape™ tops by Wilsonart are being introduced on surfaces. This new ultra-thin, marble and stone-like product is a durable nonporous composite material that is resistant to stains and impervious to moisture. It is impact, abrasion and scratch resistant. Perfect for high-use areas.*

*SideShare provides low maintenance surfaces and laminates while delivering affordable luxury with exceptional performance.*

*SideShare is designed by Alin Copil.*

# Greet and Meet, Communal Hubs and Reception

SideShare welcomes guests, provides an area for meeting and events, and places for staff to gather for social interaction. Greet & Meet, Conversation Hubs, Mudrooms and Community Rooms being the most common uses and terminology.

Each area can double as multi-function spaces for events; or transform from a coffee counter to serve as a workstation. Flexibility that allows for team collaboration and creative work.

# SideShare is Simple and Easy to Specify

Contact Three H Customer Service for potential additional design options.
