POWERBENCH

QUIETLY OPTIMIZING THE WORKPLACE

PowerBench takes the proven spine power kit used in PowerBeam and delivers power effortlessly to users without disrupting workflow. Its laminate, enclosed base conceals the height adjustable legs, creating an upscale and quiet design. PowerBench provides a feeling of permanence, offering users a strong sense of place in an ever-changing workplace.

PowerBench optimizes space while fostering collaboration among employees thanks to its simple and succinct kit of parts. Whether teams are working side-by-side or individuals are focused on the tasks of the day, the efficient footprint of PowerBench provides all the essentials needed today. Place Day-to-Day tables nearby for swift collaboration, Calibrate lockers for personal storage, and Chatham Cove Work Lounge for private, heads-down work. Our broad product offering provides many choices to support the varied needs of users today.

PowerBench one-sided application
